

W F Joseph Lee Primary School
School Report
2014-2015

Background

The school's sponsoring body is Wofoo Foundation Ltd., a charitable non-government subvented organization established by Dr. Joseph Lee in May 1997. The Foundation aims at providing social services and is committed to the betterment of the Hong Kong community. It focuses on the needs of the young and the elderly, and in response to the 2000 Education Reform, it started to offer its support to the children of Hong Kong in the provision of quality education. Since early childhood education is the basis for life education, the Foundation chose to open a school at the primary level under the direct subsidy scheme. The W F Joseph Lee Primary School was founded in September 2002 against this background.

Philosophy

It is our belief that the overall aims of education are to enable every child to attain all-around development in the domains of ethics, intellect, physique, social skills and aesthetics. Therefore, along with the academic learning, education in the new Millennium should also involve the enhancement of self-esteem, social interaction and responsibility, personal growth, creative imagination, independent thinking and the right attitude in using information technology. It is only through the integration of these diverse skills that our future generations can be properly prepared to meet their challenges.

Vision

Our school is an exemplary learning organization wherein every member achieves one's best.

Mission

We pledge to provide quality education in developing our students' multiplicity of capabilities so that they are intellectually individual thinkers.

We pledge to develop students to their fullest potential in all areas physical, moral, intellectual, psychological and aesthetics.

We pledge to develop students into responsible future members of society worthy of respect.

Objectives

We are committed to cultivate in our students the following qualities and aspirations:

1. Sound and solid education foundation
2. Be biliterate
3. Be able to think logically
4. Be curious and show innovation in studies
5. Be healthy in mind and body
6. Have a unique disposition
7. Have commitment towards society
8. Have knowledge and appreciation of Chinese and foreign cultures
9. Have basic computer knowledge

We hope all our parents can be with the children during their growing years by:

1. Offering great attention to the children
2. Offering close family relationships
3. Having happy experiences as parents
4. Offering support to the missions and policies of the school

We hope that our school can have an effect on and function well in the community by:

1. Seeking resources from the community in a positive way in order to strengthen, deepen and widen the learning experiences of students.
2. Co-operating with other organizations to cultivate people and to contribute our resources to the community.

Motto

“Wisdom-Faith-Love”

Our School

We are a direct subsidy primary school, adopting a school based management mode (SBM). The majority of our students come from comparatively well off families living in Yuen Long, Tuen Mun and Tin Shui Wai in the New Territories. About 70% of them come to school by school bus, the rest by private car or on foot.

With 5 classes in each level, we have altogether 30 classes. We are housed in a 7-storey Y2K designed building standing on 6 200 square metres in northern Tin Shui Wai, New Territories. The school is equipped with 30 standard classrooms, 1 hall, 1 library, 1 dancing room, 2 basketball courts and 7 special rooms for teaching information technology, language, general studies, music and art. One multipurpose room has been converted into a multi-media learning centre with 36 computers. With ample resources, we are able to provide a happy and motivating learning environment for our students.

Following the guidelines laid out by the EDB, our school-based curriculum infuses the concept of multiple intelligences learning. It also adopts a trilingual and biliterate approach to teaching to enhance students’ language skills in communication and learning. As for pastoral care, the whole school approach is being practised.

Tables:

1. Class organization

Level	P1	P2	P3	P4	P5	P6	Total
No. of class	5	5	5	5	5	5	30
Total enrollment	160	147	146	138	121	130	842

2. Manpower

Category	Number
Principal	1
Consultant	3
Teaching Staff	61
Administrative Staff	10
Supporting Staff	5 + Outsource of cleaning service
Total	80

3. Teachers’ Experience

No. of years	0-5	6-10	Over 10
Percentage (%)	21%	51%	28%

4. Teachers’ qualification

No. of years	Bachelor Degree	Master or above
Percentage (%)	100%	31%

Achievements and Reflections on Major Concerns

Priority Task 1:

Goal 1: Enhance teaching effectiveness in order to develop students to be independent learners

Achievements

In order to develop our students to be independent learners, we carried out a school-wide research to study the students' learning styles, the result as follow:

Learning style	Percentage (%)
1. Visual learning style	40%
2. Kinesthetic learning style	32%
3. Auditory learning style	9%
4. Average learning style in all	19%

The findings showed that more than 70% of students are in visual or kinesthetic learning style. To enhance the teaching and learning effectiveness, differentiated learning strategies were adopted and student-centred activities were reinforced to train the students to become independent learners.

In order to open the teachers' views on how to train students to be independent learners, inquiry process in all subject areas has been promoted to ensure student-centred instructions were applied. The workshops of the Inquiry Process were conducted from September to December. According to the lesson observations, the teachers started to conduct the lessons by using inquiry approach, however, the effectiveness could be reinforced in a more efficient way. Some students could master the inquiry process such as posing real questions, finding resources, interpreting information and reporting findings, some students still encountered difficulties and found difficulties in the process. Teachers should give more chances to the passive students.

To further developed students' self-learning habit, most of the students established the habit through pre-lesson preparations like dictionary check-up, on-line research and questions posing. Furthermore, students were able to take the initiatives to jot notes during lessons. According to the lesson observations and peer observations, more than half of the students could pose higher-order-thinking and open-ended questions in lessons.

With the help of IT support, the I.T. Team arranged Edmodo, Dyknow and Video Editing workshops last year, the software of Dyknow was applied into mathematics and science curriculum in senior grades. The students of senior grades started to submit their homework through Edmodo in different subjects, such as IT, VA and GS. With the help of e-learning tools, students became more active to share their homework or findings to other students.

Reflection

Since primary school students are too young to be independent learners, after a careful thought, we think it more appropriate to equip them with necessary skills to be self-directed learners.

We are planning to set clear and concrete progressive goals at different key learning stages and to provide students with necessary skills training so that they can apply aptly the self-directed learning skills.

Priority Task 2:

Goal 2: Develop a distinctive school culture through the development of a reflective school ethos and deliberate cultivation of the “16 Habits of Mind”

<p>Achievements</p> <p>To establish good school culture by infusing students with ethics of our school motto “Wisdom, Faith, Love” and develop a reflective school ethos. A workshop on the reviewed 16 Habits of mind (HoM) was arranged on Professional Development Day. To tie in with the school's motto “Wisdom”, the 16 HoMs were infused into the content of the assemblies.</p> <p>To train our students as leaders, different types of ambassadors have been organized. 104 prefects, 20 I.T. ambassadors, 24 P.E. ambassadors, 25 V.A. ambassadors, 24 music ambassadors and 50 library prefects were recruited as leaders to develop their talents, to realise their potential and to enhance their responsibility. In order to strengthen the leadership training and the team-spirit of staff and students, we also organized the Prefect Orientation Camp, P.4 Self-challenging Day Camp and Uniform Group Day Camp last year. All of these activities were able to build up students’ team spirit and leadership skills. Students’ self-reliance, communication, collaboration skills were further enhanced. Service-learning for P.1 to P.6 was arranged for each grade, which was a good steppingstone to cultivate students' social caring awareness. For teachers, the inter-house competition and house activities were arranged once a month to enhance the team spirit between teachers and teacher-student.</p> <p>According to the data of APASO, the students could apply the HoMs in real lives and to cultivate positive values of life. However, we found it difficult to develop the sixteen different characteristics of HoMs simultaneously.</p>
<p>Reflection</p> <p>We aimed to cultivate positive values and character building for our students through “16 HoMs”. However, it is quite difficult to implement the 16 HoMs at the same time. It is better to narrow down the 16 HoMs into small groups for easy handling.</p> <p>According to the ESR report, the self-reflection period was suitably provided for students to do reflection. However, most of the students emphasized on academic studies. We should guide the students to set diversified goals and have more reflection on other aspects.</p> <p>Service Learning provides a good platform for students to develop awareness on social caring, How to put social caring into practice would be our focus in the next stage.</p>

Priority Task 3:

Goal 3: Build a vigorous and vibrant learning community for all our stakeholders

<p>Achievements</p> <p>We intended to build a vigorous and vibrant learning community among teachers, students and parents.</p> <p>In order to empower middle managers to build Teams of learners, three leadership training workshops were arranged to strengthen the leadership role of middle managers. The middle managers helped to lead team planning and give constructive feedback to teachers.</p> <p>Each teacher set target for professional and personal development in the academic year. All the teachers were encouraged to join different workshops or took courses to achieve their personal goals. More than half of teachers have shared their learning in professional sharing period during staff meeting for sustainable development purpose.</p> <p>To empower students to be confident and autonomous learners, the morning assembly and Campus TV session were mainly hosted by students. Students were also trained to be Emcee in the subject-based events such as Poetry Café, Singing Contest as well as Easter concert. More than 60% of students had chance to perform on stage. With the arrangements prepared by the teachers and parents, the learning community among students helped to build up their confidence.</p> <p>To enable parents with a better understanding about the “16 HoMs”, a parent’s workshop was held to introduce the “16 HoMs” among parents, the concept was laid in parents’ mind. The encouragement of putting the ideas of 16 HoMs into daily life practice will be our focus in next stage.</p>
<p>Reflection</p> <p>The framework of the learning community has been set up among teachers, parents and students. In order to strengthen the participation of different groups, cross-collaborative communications between stakeholders are encouraged in the coming academic year.</p>

A. Our Learning and Teaching

To enhance teaching effectiveness, one team planning period was scheduled per week for every subject to share good teaching methods and to ensure on-scheduled teaching. Teachers could make use of the time to modify teaching plans and teaching materials. Some quality teaching plans and lesson designs were disseminated during subject meetings and learning circles periods (to all staff) throughout the year. Moreover, Peer sharing helped to promote a sharing spirit between teachers. The lesson observation form has been revised to focus on the awareness of questioning technique. However, more concrete feedback for improving the lessons was expected

Catering for individual difference was another focus in Learning & Teaching. Appropriate remedial measures were given to the students with learning difficulties, such as extra help or moderation in their daily assignments until they could master it/them. Students with special needs generally gained more motivation from the above adjustments

In order to enhance fairness in marking, a moderation system was implemented in some subjects, for example the writing paper of language subject. Samples of different abilities were chosen and marked according to the compromised grading rubrics. Teachers marked the exam papers in same standard so as to avoid discrepancies among teachers. The moderation practice is effective and will be carried out.

B. Support for Student Development

To support the teachers to solve the problems of emotional students or other students in need, the School Based Support Team (SBST) has been established since the year of 2014-2015. The SBST team included the school consultant, the education psychologist and the school social worker, guidance teacher and our administrative teachers. In addition, it aims to enable the underachievement students to acquire academic and social competencies, achieve standards and cultivate a collaborative environment among teachers. With the help of SBST team, the teachers were benefited from the effective ways provided by the team.

C. Student Performance

Secondary School Places Allocation was an indicator to show the success of student performance. 131 students took part in the Secondary School Places Allocation for allocation of Secondary 1 places. 98% of students were admitted into schools of their first-three choice at the discretionary

places placing stage of the Secondary School Places Allocation exercise. These 131 students were sent to more than 40 different secondary schools. Among all 131 Primary 6 students, more than 48% was admitted into Direct Subsidy Secondary Schools.

D. Non-academic performance

Besides academic performance, the most convincing indicator was to observe our students' overall performance. They are confident, well-mannered and pleasant, able to converse with anyone, love learning and are welcomed by secondary schools. For achievement in non-academic performance, details can be referred to Appendix 1.

W F JOSEPH LEE PRIMARY SCHOOL
Reporting DSS Schools' Annual Financial Position
Financial Summary for the 2013/2014 School Year

	Government Funds	Non-Government Funds
INCOME (in terms of percentages of the annual overall income)		
DSS Subsidy (including government grants not subsumed in the DSS unit rate payable to schools)	77.2%	N.A.
School Fees	N.A.	19.5%
Donations, if any	N.A.	0%
Other Income, if any	1.3%	2%
Total	78.5%	21.5%
EXPENDITURE (in terms of percentages of the annual overall expenditure)		
Staff Remuneration	78.2%	
Operational Expenses (including those for Learning and Teaching)	15%	
Fee Remission / Scholarship ¹	2.4%	
Repairs and Maintenance	0.9%	
Depreciation	2.7%	
Miscellaneous	0.8%	
Total	100%	
Surplus for the School Year [#]	2 months of the annual expenditure	
Accumulated Surplus in the Operating Reserve as at the End of the School Year [#]	8 months of the annual expenditure	
[#] in terms of equivalent months of annual overall expenditure		

Details of expenditure for large-scale capital works, if any:

¹ The % of expenditure on fee remission/scholarship is calculated on the basis of the annual overall expenditure of the school. This % is different from that of the fee remission/scholarship provision calculated on the basis of the school fee income as required by the Education Bureau, which must be no less than 10%.

It is confirmed that our school has set aside sufficient provision for the fee remission / scholarship scheme according to Education Bureau's requirements (Put a "✓" where appropriate).

Report on the Use of Capacity Enhancement Grant (CEG) (2013-2014)

CEG total amount :

Carried forward	\$80,851.29
Grant \$986 x 847	<u>\$835,142.00</u>
Total Income	\$915,993.29

Use of CEG :

Employment of additional English Teachers	\$709,191.00
Employment of IT Technical Support Service	<u>\$178,920.00</u>
Total Expenditure	\$888,111.00

E. Feedback on Future Planning

- (1) The review in 2014-2015 showed that we encountered challenges to develop students to be independent learners as they were too young to set their own goals , their self-management, self-monitoring and self-reflection skills have yet to developed. So we plan to focus on equipping their skills so that they can be self-directed learners in the coming academic year. We hope that they can be more active and responsible in their own learning.
- (2) According to the teachers’ review and the evaluation result from the APASO, we understand that it is difficult to infuse all the 16 HoMs systematically into the curriculum. In the coming year, we plan to group the 16 HoMs into four categories as “Learning Outcome”, “Learning Process”, “Human Relationship” and “Thinking Attitude”.

Category of 16 Habits of Mind	
(A)	Learning Outcome
1.	Striving for accuracy & precision
2.	Thinking and communicating with clarity and precision
3.	Creating, imagining and innovating
4.	Apply past knowledge to new situations
(B)	Learning Process
5.	Learn through all senses
6.	Questioning and posing problems
7.	Persisting
8.	Learning continuously
(C)	Human Relationship
9.	Managing impulsivity
10.	Listen to others with understanding and empathy
11.	Responding with wonderment and awe
12.	Finding humour
(D)	Thinking Attitude
13.	Thinking flexibly
14.	Thinking about thinking
15.	Thinking interdependently
16.	Taking responsible risks

After a thorough discussion among teachers, we plan to focus our direction by developing a culture of thoughtfulness through the 16 HoMs. We also choose “A1: Striving for accuracy & precision”, “B6: Questioning and posing problems”, “C10: Listen to others with understanding and empathy” and “D15: Thinking interdependently” as the main foci of the school year 2015-2016. The above mentioned habits will not only to cultivate positive value of life, but also as the criterion for teaching and learning.

(3) Learning communities have been successfully launched in 2014-2015. In the coming academic year, we plan to encourage more sharing and cross-collaborative communications to build a vigorous and vibrant learning community.

Major concerns of 2015-2016:

Goal 1: Enhance teaching effectiveness in order to develop students to be self-directed learners

Goal 2: Develop a school culture of thoughtfulness through the development of the “16 Habits of Mind”

Goal 3: Build a vigorous and vibrant learning community for all our stakeholders
