

Principal's Message 2025-2026

Dear Parents and Students,

Welcome back! The rewarding successes of the 2024-2025 school year have filled us with confidence and enthusiasm as we embark on a new journey together. I am excited to share with you the preparations our school has made to face the challenges ahead.

Since last year, we have adopted a broader vision in structuring our school themes. Each year, we highlight two character traits and transform them into an inspiring, actionable theme. Last year, under the theme *"Ignite Your Potential!"*, our students demonstrated remarkable confidence as they explored their abilities. This year, we will join hands with our students as we dive into the theme *"Adventures in Curiosity"*.

Curiosity is the engine of human progress. Being curious turns school days into exciting opportunities for discovery. When you uncover something new, your desire to learn grows even stronger. This natural, joyful learning process reduces stress and inspires deeper engagement.

You might wonder where curiosity will lead you — if you are on the right path or venturing into the unknown. This is where an open-minded attitude becomes essential. By listening to diverse ideas and embracing different perspectives, a clearer understanding emerges. Mastering the journey from the unknown to enlightenment equips you with a powerful tool that will serve you throughout life.

In line with our vision to expand possibilities and opportunities, and following the announcement in the Chief Executive's 2023 Policy Address regarding the introduction of Primary Humanities and Primary Science in the 2025/26 school year, we have updated the suggested lesson time allocation in the Primary Education Curriculum Guide (2024). Accordingly, the *Six-Day Cycle School Timetable* will be implemented. We sincerely seek your support as parents, as your cooperation is crucial to the success of these changes. Together, we can maximize the benefits for our students through genuine home-school collaboration.

We have placed strong emphasis on Social Emotional Learning (SEL) over the past few years. This year, we will integrate resources further and encourage greater parent participation, recognizing that family plays a vital role in the success of SEL. We hope all parents will dedicate time and patience to walk alongside us in this important journey.

Let us all nurture a thirst for the unknown, open our hearts to new experiences, and joyfully explore the answers together. Wishing everyone a wonderful and inspiring year ahead!

Victoria Poon
